

Finally, a varnish that smoothes out your stickiest problem.

Smoother, faster, thinner Vella means no lumps, clumps or stringy messes.

Tired of lumps and clumps slowing down your varnish application? Try Vella, the 5% sodium fluoride varnish with Xylitol that goes on easier. With twice as many bristles, our brush applies more product faster. And our container is so sturdy, you can hold it closer to the mouth and wipe the brush tip more easily. That means fewer trips to the well, ensuring a smoother, less-messy, thin-layer application. With unsurpassed fluoride uptake! Plus, Vella sets quickly in contact with saliva and dries clear! Call your favorite dental dealer and ask for Vella. In strawberry, spearmint or melon!

Easy open unit dose package!

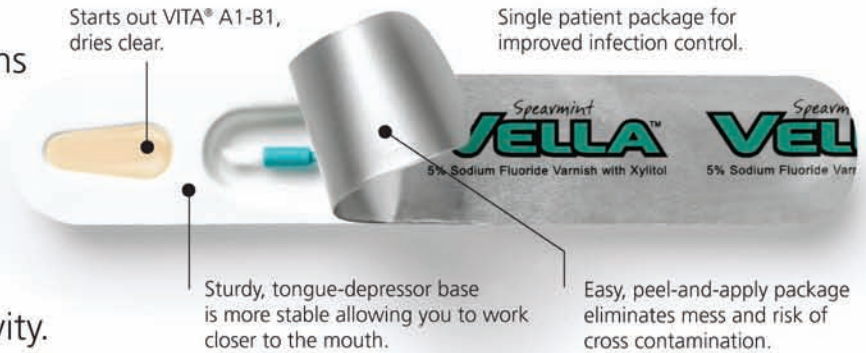

VELLA®
